

Surgeons Rarely Discuss Sexual Activity with Patients after THA

A Survey of Members of the American Association of Hip and Knee Surgeons

Diane L. Dahm, MD; David Jacofsky, MD; and David G. Lewallen, MD

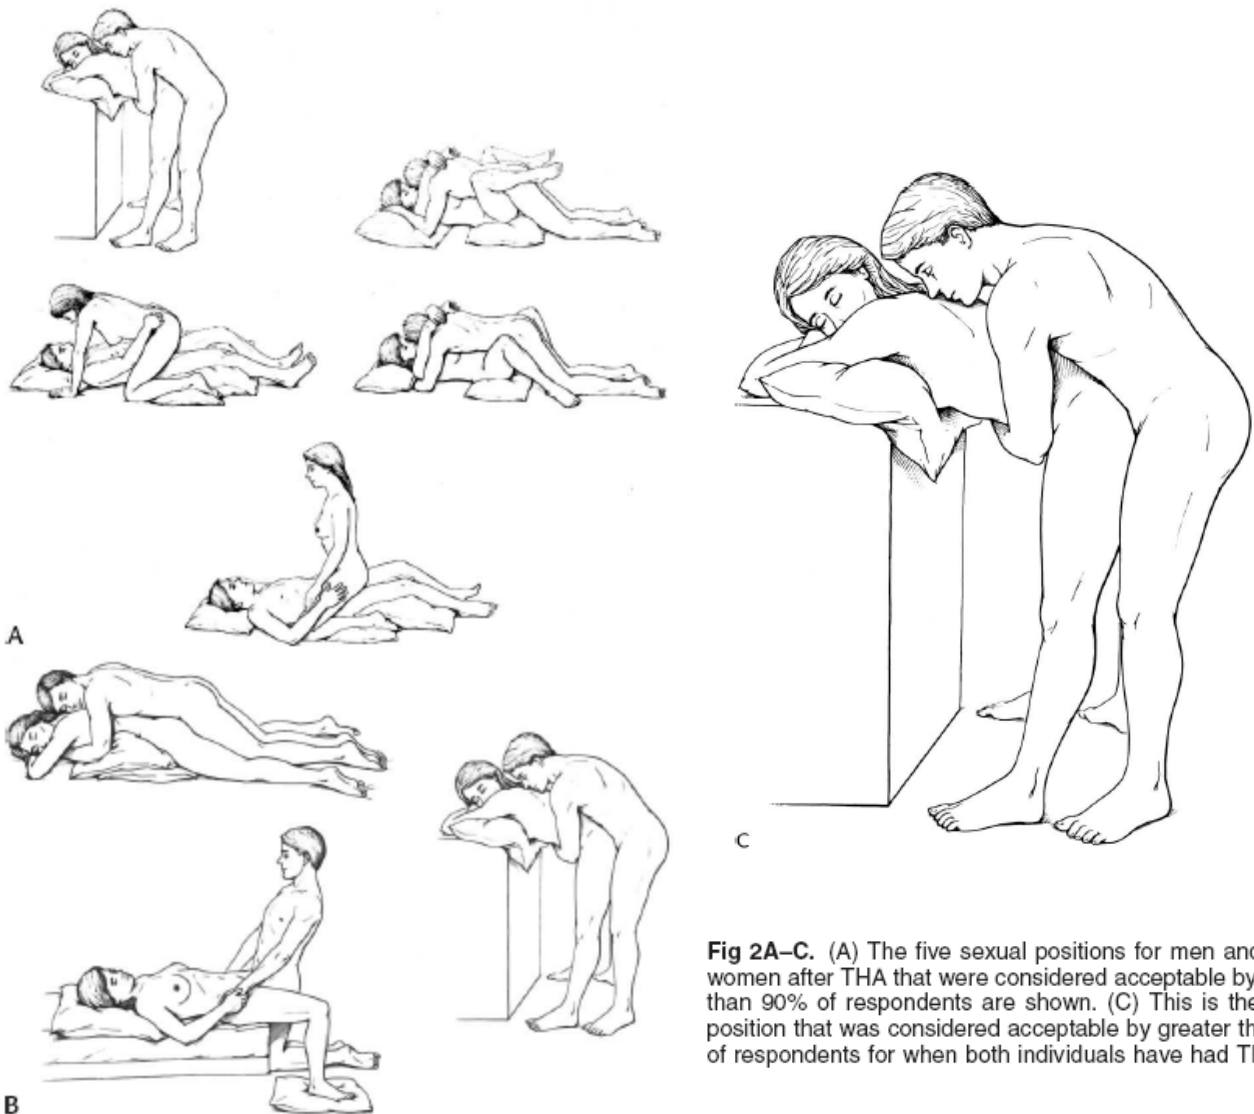

Fig 2A-C. (A) The five sexual positions for men and for (B) women after THA that were considered acceptable by greater than 90% of respondents are shown. (C) This is the sexual position that was considered acceptable by greater than 90% of respondents for when both individuals have had THAs.

You may resume sexual activity 3 weeks after surgery, please abide by the prescribed hip precautions. After 6 weeks, your hip precautions may be relaxed and you may resume your normal activities as tolerated.
